

BISWASH RAI

AI Automation Builder | No-Code/Low-Code Developer

Abu Dhabi, UAE | @vibetechbee (Instagram/LinkedIn)

PROFESSIONAL SUMMARY

Self-taught AI automation builder with hands-on experience designing WhatsApp/Telegram bots, Make.com and n8n workflow pipelines, and AI-powered content systems. Passionate builder-in-public creating real-world automation solutions for UAE small businesses and solo entrepreneurs. Comfortable working with modern AI tools including OpenRouter, Supabase, Docker, and LLM-based agents.

TECHNICAL SKILLS

Automation & Workflow: Make.com, n8n (self-hosted Docker/WSL2), Webhook triggers, HTTP modules, API chaining

AI & LLM Stack: OpenRouter (Gemini 2.0 Flash, DeepSeek V3), Prompt engineering, Agent design, Open WebUI, LangFlow, CrewAI

Development Tools: Flutter (mobile), React, VS Code, Cursor AI, Google AI Studio

Infrastructure & Data: Supabase, Docker, WSL2 (Ubuntu), Portainer, Telegram bots, Twilio, Bannerbear

EXPERIENCE

AI Automation Freelancer

2024 – Present

vibetechbee (Self-employed) | Abu Dhabi, UAE

- Built WhatsApp AI autoresponder bots for UAE small business clients using Make.com and Twilio
- Developed Instagram content automation pipeline (Google Sheets → Bannerbear → Telegram approval gate)
- Created Email Intelligence Agent: Gmail → OpenRouter → Supabase → Telegram digest
- Designed Freelancer.com proposal automation system (5-module Make.com pipeline)
- Managing social media and automation for Hair by Pannu — luxury mobile hair styling in Abu Dhabi

Driver / Operations

2023 – Present

Aman Taxi | Abu Dhabi, UAE

- Maintained high service standards and strong customer satisfaction in daily transport operations
- Demonstrated reliability, time management, and professional communication

KEY PROJECTS

Commander Agent Workspace — Local AI agent stack: Open WebUI + OpenRouter + Make.com + Supabase + Brave Search on WSL2 Ubuntu

TaxiLog — Flutter Mobile App — Offline-first income tracker with Google ML Kit OCR, Hive, Riverpod, fl_chart — AED/Arabic receipt support

Freelancer.com Proposal Bot — Automated proposal generation: job scraping → OpenRouter analysis → personalized proposal → Telegram delivery

EDUCATION & SELF-LEARNING

Self-taught in AI automation, no-code/low-code development, and mobile app building (2024–Present)

- Continuous learning via LLM-assisted development using Claude, Cursor AI, and Google AI Studio
- Active builder-in-public sharing tutorials and project builds with a growing online audience
