PROFESSIONAL SUMMARY

Innovative and results-driven professional with a unique dual expertise in digital marketing strategy and AI-driven workflow orchestration. Over 12 months of intensive, hands-on experience building multi-channel content pipelines, designing premium brand assets, and deploying production-grade automation systems for businesses. Proven track record of translating corporate goals into high-impact digital campaigns while leveraging cutting-edge tools to reduce manual operational workflows by up to 80%.

PROFESSIONAL EXPERIENCE

Digital Marketing & Automation Specialist Hair by Pannu 2024 – Present

- **Content Architecture:** Designed and executed an end-to-end Instagram content pipeline from scratch, managing aesthetic layout, video production, and AI-assisted copywriting via Canva and Google Sheets.
- **Communication Automation:** Successfully engineered and deployed a custom WhatsApp AI autoresponder and booking bot using Twilio, Make.com, and OpenRouter, delivering 24/7 client response capabilities.
- **Brand Alignment:** Produced high-end marketing collateral, digital price lists, and social media reels covers that successfully maintained a cohesive corporate identity.
- **Operational Optimization:** Configured automated publishing, scheduling, and asset delivery networks, reducing manual creative overhead by 80%.

AI Automation Consultant Freelancer.com / Build-in-Public 2024 – Present

- **Workflow Engineering:** Architected multi-step, multi-agent automated systems for small business clients, connecting communication networks (Gmail, Telegram) with central databases and AI model endpoints.
- **Community Engagement:** Actively document and publish full automation builds and workflow logic on LinkedIn and Instagram (@vibetechbee), driving brand authority and engagement for a non-technical professional audience.

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor of Business Management (BBM) – Himalayan White House International College

- Focus: Strategic Operations, Business Administration, and Marketing Frameworks.

Continuous Professional Development & Technical Training

- 12+ months of dedicated technical execution, covering multi-container local stack migration (SQLite to PostgreSQL via Docker) and agent-assisted development environments.
